SPECIFICATIONS:

- + Waterproof brief case with roll closure and QL3.1 mounting system
- + Ideal for biking to the office, city, university etc.
- + PVC-free reflective fabric
- + Increased visibility when hit by headlights due to highly visible reflective fabric in black
- + Single-handed mounting and removal of the bag
- + QL3.1 studs are mounted directly on the luggage carrier prepared for QL3.1
- + QL3.1 mounting kit (not included) as an optional accessory for carriers without QL3.1 preparation
- + Flat mounting elements ensure plane reverse side of bag
- + Two strong 3M Scotchlite reflectors
- + Size ideal for 2 large office files, tablet, cell phone etc.
- + Inner compartments with pockets
- + Carrying handle and padded removable shoulder strap

Contents: Bag comes with inner compartment, padded shoulder strap and QL3.1 studs

Attention: Remove shoulder strap and stow away inside bag prior to biking

Optional Accessories: QL3.1 mounting set for rack diameters 12 to 16 mm (E191), QL3.1 mounting set (E201)

Attention: As abrasion cannot be ruled out, we recommend that all points where the mounting system contacts the bicycle rack or frame be protected by scratch protection film.

Attention: Maximum load per pannier is 9kg / 20 lbs. We recommend weighing each loaded pannier to confirm that the maximum allowance of the pannier fixation is not exceeded. This practice is advised for both rear and front panniers. CAUTION: The maximum weight capacity of every carrier model is different. Please observe the maximum weight allowance of the carrier fitted to your bicycle. Note: Sometimes the maximum capacity of the panniers fixing system can exceed the maximum capacity of the carrier. DO NOT exceed the maximum capacity of the carrier! Note, that the use of panniers will significantly influence the handling properties of your bicycle.

Note: In order to meet standard IP64 (6=dustproof, 4=protected against splash water coming from all directions) the roll closure must be rolled at least 3-4 times.
