Mounting system for panniers, automatically closing

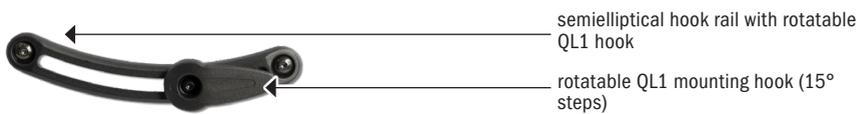

QL1 system

PVC free

top mounting:

lower mounting:

SPECIFICATIONS:

- + Automatic closing and opening of hooks by lifting the pannier handle upwards
- + Simply mount pannier to the rack and let go of handle =>the QL-system closes automatically
- + Pannier can be unlocked and removed, also when e.g. a Trunk-Bag is mounted on the rack
- + Large 16mm hook is also suited for Dutch city bikes
- + QL-hooks are easily adjustable
- + Interchangeable inserts (8 and 11mm) for perfect fixture to all standart rack diameters
- + Large adjustment range of QL1 hook on hook rail
- + All screws on hooks must be checked and tightened, if necessary, after 100 km for the first time, and then at 500 km intervals
- + Rails and hooks are available as spareparts

Attention: Maximum load per pannier is 9kg / 20 lbs. We recommend weighing each loaded pannier to confirm that the maximum allowance of the pannier fixation is not exceeded. This practice is advised for both rear and front panniers. CAUTION: The maximum weight capacity of every carrier model is different. Please observe the maximum weight allowance of the carrier fitted to your bicycle. Note: Sometimes the maximum capacity of the panniers fixing system can exceed the maximum capacity of the carrier. DO NOT exceed the maximum capacity of the carrier! Note, that the use of panniers will significantly influence the handling properties of your bicycle.
