PRODUCT TEXT

ORTLIEB BACK-ROLLER PLUS (PAIR)

WATERPROOF REAR PANNIER WITH ROLL CLOSURE

The Back-Roller Classic is a spacious bike pannier for the rear rack. With its symmetrical design and slanted shape on both sides this classic ORTLIEB bag provides enough space for pedalling, while also able to be used individually either on the left or right side of the bike. An integrated inner pocket with zipper consisting of main compartment and mesh pocket helps keeping things organized.

The ORTLIEB QL2.1 system allows fast and easy single-handed mounting and removal of the panniers, and is suitable for racks with a tube diameters up to 16 mm (hook inserts for diameters of 8, 10 and 12 mm are included). Once the panniers are hooked into the rack, the mounting components close automatically. For taking off the rack you simply lift the handle. A 20 mm hook is available as optional accessory. The hook rail on the lower rear side of the pannier that serves for additional fixation is made of a two-component synthetic combination with anti-scratch function. This reduces abrasions on the carrier and prevents damage to the rack tubing. Thanks to the QL2.1 mounting hook rotatable in 45° steps the system is compatible with almost any bike rack.

Two large and highly reflective 3M Scotchlite reflectors ensure safety in the dark. The panniers are supplied with a shoulder strap and can be carried like a shoulder bag. Note: the panniers can be combined with ORTLIEB Rack-Pack size 24 L or 31 L.

OPTIONAL ACCESSORIES

Carrying System Bike Pannier: it converts the pannier into a daypack, Outer-Pocket: additional packing volume for longer bike tours can be achieved with the outer pockets in size 1.8 L, Mesh-Pocket, Bottle-Cage, Anti-Theft-Device (E125), QL2.1 hook 20mm (E193).
