

ORTLIEB DRY-BAG PD350

STURDY, STRONG DRY BAG WITH ROLL CLOSURE

Typical characteristics of ORTLIEB dry bags are the smart and simple roll closure and the 3D welding seams which are even stronger than the fabric itself. The numerous different versions from small lightweight models to huge XL sizes offer many choices for different uses. You will certainly find the right model for your field of application.

The PD350 dry bags are a budget version for use in camping and easy trekking tours, and offer a compromise between acceptable weight and robust durability. It is a matter of course that they are waterproof. The bottom part is made of durable PD620 fabric. The stable round base is provided with a bottom loop for holding when emptying the bag, or as fixing loop and pulling aid, the closure features D-rings for locking or fixing.

SPECIFICATIONS

Material: polyester, PVC-coated

Volume: 5L/305cu.in. 7L/427cu.in. 10L/610cu.in. 13L/793cu.in. 22L/1343cu.in. 35L/2136cu.in. 59L/3600cu.in. 79L/4821cu.in. 109L/6652cu.in.
