

ORTLIEB FUEL-PACK

TOP TUBE BAG BIKEPACKING

Part of the bikepacking line, the waterproof top tube bag is the ideal place for keeping everything that you need to access quickly while you ride. The compact bag can be mounted on the top tube using perforated rubberized straps. Any drilled holes already present in the top tube can also be used to fasten the one-liter bag with screws. It is also suitable for mounting on carbon frames.

The sturdy nylon fabric combined with the stiffened material inside ensures that the bag retains its shape at all times. An integrated cable outlet on the lid closure means that the Fuel-Pack can also provide a safe and dry space to charge a smartphone during the trip. The lid is fitted with two magnetic points so that the cargo remains secure even on rougher terrain. Opening the bag and accessing its contents with one hand during the ride presents no problem at all. And the lid of the 160-gram Fuel-Pack then shuts again under its own weight, with the two magnets automatically closing it securely.

The Fuel-Pack is PVC-free and produced sustainably in Germany.

ADDITIONAL FEATURES

Reflective logo

Mesh pocket inside the stiffened interior

SPECIFICATIONS

Material: Nylon fabric, PU-coated

Volume: 1 L

Weight: 160 g

Colors: black matt
